## PRIVACY NOTICE FOR THE PHYSIOTHERAPIST JULIE HERBERT

(Why we collect your personal data and what we do with it)

When you supply your personal details to this clinic they are stored and processed for 4 reasons (the bits in bold are the relevant terms used in the General Data Protection Regulation – ie the law):

1. We need to collect personal information about your health in order to provide you with the best possible treatment. Your requesting treatment and our agreement to provide that care constitutes a **contract**. You can, of course, refuse to provide the information, but if you were to do that we would not be able to provide treatment.
2. We have a "**Legitimate Interest**" in collecting that information, because without it we couldn't do our job effectively and safely.
3. We also think that it is important that we can contact you in order to confirm your appointments with us or to update you on matters related to your medical care. This again constitutes "**Legitimate Interest**", but this time it is your legitimate interest.
4. Provided we have your **consent**, we may occasionally send you general health information in the form of articles, advice or newsletters. You may withdraw this consent at any time – just let us know by any convenient method.

We have a **legal obligation** to retain your records for a minimum period of 8 years after your most recent appointment (or age 25, if this is longer), but after this period you can ask us to delete your records if you wish. Otherwise, we will retain your records indefinitely in order that we can provide you with the best possible care should you need to see us at some future date.

Your records are stored\*

on paper, in locked filing cabinets, and the office is always locked out of working hours.

electronically ("in the cloud"), using a specialist medical records service. This provider has given us their assurances that they are fully compliant with the General Data Protection Regulations. Access to this data is password protected, and the passwords are changed regularly.

on our business computers. These are password-protected, backed up regularly.

We will never share your data with anyone who does not need access without your written consent. Only the following people/agencies will have routine access to your data:

- The medical records service who store and process our files
- Your practitioner(s) in order that they can provide you with treatment
- Our reception staff, because they organise our practitioners' diaries, and coordinate appointments and reminders
- Other administrative staff, such as our bookkeeper.
- We also use other software such as Mailchimp and RehabMyPatient so your name and email address may be saved on their server.

*From time to time, we may have to employ consultants to perform tasks which might give them access to your personal data (but not your medical notes). We will ensure that they are fully aware that they must treat that information as confidential, and we will ensure that they sign a non-disclosure agreement.*

*You have the right to see what personal data of yours we hold, and you can also ask us to correct any factual errors.*

*We want you to be absolutely confident that we are treating your personal data responsibly, and that we are doing everything we can to make sure that the only people who can access that data have a genuine need to do so.*

*Of course, if you feel that we are mishandling your personal data in some way, you have the right to complain. Complaints need to be sent to the "Data Controller". Here are the details you need for that:*
