Parking

There is plenty of parking, but to ensure everyone can come and go freely, please park in the spots advised by pictures. Julie or Natalie should be ready for you to assist on your first visit. Please do not block the carports or block the spaces for residents to the left-hand side of the carport.

The picture below is space up the drive to the left. You can park nearest the wall/sleeper - this is if you would like a short walk across the drive to the clinic room!

However, you can park directly outside clinic – there is a slight slope. Do not park over the green drain. My car will be parked directly next to clinic – see first picture – second picture – where you can park. Please do not block the toilet entrance or steps to left

Waiting for your appointment

We have no waiting room or receptionist in clinic, If you are early, please wait in your car. The clinic door will be open between patients unless the weather is too hot or cold! In which case, we will come and get you!

The Clinic Entrance

There is a small step into clinic, however, we have a ramp, if needed. Let us know, so we can have it ready for your arrival.
